

Covid-19 precautionary measures at Avocet Glamping

Hand washing signs will be displayed to encourage and remind guests to frequently wash their hands. Details of the current regulation regarding groups limited to no more than two households will be displayed on our website and social distancing reminder signs will also be displayed around the campsite.

Cleaning regimes will include the cleaning between guests using disposable cloths of:

- Keys
- Hand contact surfaces
- Crockery and utensils
- Shower room, water points, kitchen and washing up stations

The shower room is shared between the two units which are spaced more than 6m apart. Signs will be displayed to ensure guests remove all personal items and keep the door open after use. Closure of the shower room for cleaning will be every evening at 8pm unless we only have one family staying. Sanitiser and wipes will be made available.

Toys and blankets have been removed. Guests must provide their own towels and blankets.

We ask that any guest who is unwell reports this to us.
